alutechscreens.com

Our ***BARRACUDA*** shutters provide you with code compliant hurricane protection with smaller housings. Similar to our Magnum roller shutters, the end retention system built into our Barracuda shutters eliminates the need for storm bars. The Barracuda EXCEEDS even the toughest standards required by both international and domestic building codes.

Slat Retention Lock Tracks

Our one-of-a-kind "end retention system" coupled with our ***Double Walled Slat***, eliminates the need for intermediate vertical storm bars.
This patented technology allows for SMOOTHER, QUIETER shutter operation.

- 20 ft tall max shutter height
- Snap in screw cavity cover

VENTED SLATS

Slat vent options

2 options for slat

- **Solid**
  - No light vent slits between blades, open or closed
- **Vented**
  - Light slits between slats, allowing in light and air when shutter is left in the partial open stage.

Small Housing

Aluminum housings with powder coat finish are standard for our Barracuda's system. Including an industry leading material thickness, giving you a housing to last years.

- 19.5 ft wide max shutter width* *hurricane rated max 16 ft*
- 5.5" - 12" Housing cassette sizes, depending on height

BARRACUDA

Stand out features for BARRACUDA
