

Vinyl Real Life Expectations

Vinyl with Windows

- Rolling clear Vinyl will not look like glass, expect imperfections, such as waves, bumps, light scuffs and dimples.
- Don't operate in windy conditions, will cause problems
- Recommended to retract if winds exceed 40 mph winds.
- Clean fabric once a year, with soap and water only, chemicals will degrade the vinyl.
- Spray silicone in tracks once a year.
- Apply a coat of IMAR wax quarterly to prevent sticking and causing operation failure.
- Don't operate in temps below 40°.
- After heavy moisture days, clear vinyl will fog. Leave down during daylight to allow drying to take place.

Remember, we have wind tested this product for general use, ***its not wind rated***. If any damage occurs due to wind, it will be considered neglect and will not be covered under standard warranty!
